➤ **Spring Re-Mulch Special**

Enhance the aesthetic appearance and the water conservation capability of your ornamental beds with the addition of mulch.

Order through April to receive this special price:

Re-mulching - Supreme Fiber Mulch (Labor & Material)\$ 95.00/CY

NOTE: The above pricing is for Supreme Fiber Mulch only and delivery fee applies (For a quote for different mulch, please contact our office)

The first day of spring is right around the corner, which means it's not too early to start planning and scheduling your landscape services. Whether it be our custom landscape maintenance package or a landscape renovation you've been putting off, our team of experts are ready to help.

We are proud to have received six awards, including one Grand Award of "Excellence in Landscape" from our peers at the annual convention of the Associated Landscape Contractors of Colorado (ALCC).

Over the winter, we continue to review and evaluate our programs and strive to improve quality and service without compromising our standards.

Like our programs that need to be reviewed, your landscape also needs to be reviewed. Please schedule a complimentary landscape evaluation with one of our experts. This evaluation of your property would include looking at your entire landscape and making recommendations that could save you time and money.

Thank you for your continued business.

CULTIVATE YOUR SENSES

we recommend

Bed care program

Our program is tailored around each homeowner's specific needs in order to achieve the best looking beds throughout the season. While each property is different, our experienced team, lead by a garden specialist, customizes each package to ensure lasting beauty, including weekly or bi-weekly weeding, dead-heading, trimming, fertilizer applications, and over-all bed maintenance.

Annual color

Let us add a splash of color to liven up your gardens this season. Our design team is highly skilled with providing exquisite color combinations that allow your home to shine with color. From overflowing annual pots with eye-catching centers to vibrant annual beds demanding attention, let us create a unique palette of color using the newest and best annuals in the industry.

Renovations

With landscapes big or small, let our team help re-create your landscape with innovative and unique designs. Look beyond your overgrown bushes and let Designscape Colorado update your property with a new landscape.

Lawn maintenance

Getting your landscape healthy early is the key to enduring the summer heat and stress. We will design a mowing package around your needs and lifestyle.

Fertilization. Our program includes four applications a year with different blends of nutrients and minerals that encourage a healthy lawn every season.

Broadleaf Weed Control. From dandelions to bindweed, our spring pre-emergent and post-emergent professional turf application provides the 'knock-down' power needed to control this problem at the root.

Aeration. Recommended twice a year to help reduce thatch, relieve compaction and channel water and fertilizer into the root zones creating growth pockets for new roots.

Over Seeding. For those thin lawns that must need more density, slit seeding is a very cost effective and non-disruptive way to incorporate more seed into an existing lawn.

Please contact us for a customized proposal.

our services

Sprinkler Activation

At the time of the activation, we will make the necessary adjustment and repairs to your sprinkler system to be fully operational. But please keep in mind that extensive repairs will need additional time and will be re-scheduled accordingly.
