## Spring Re-Mulch Special

Enhance the aesthetic appearance and the water conservation capability of your ornamental beds while decreasing weed seeds from germinating with the addition of mulch.

Spring Offer: 10% discount on labor and materials for residential applications of 5CY or more.

Delivery fee applies.

## Celebrating 25 Years in the Industry

I can hardly believe that DesignsCAPES Colorado is about to celebrate 25 years in business. I would like to take this opportunity to thank each of you for being part of this monumental milestone in our company's history. It was your faith and trust from the beginning that has enabled us to grow. Your commitment to high standards, along with your feedback, has inspired us to attain extraordinary achievements that have strengthened our company.

What started out in 1992 as a small firm with just a few employees has risen up to be a reputable leader in the green industry with over 250 employees. Each and every person plays a very important role in the growth and success of our organization.

Our company has innumerable accomplishments and success but none of them would be possible without our clients, the commitment of our employees, and the support of the industry that we work in. Our story remains unfinished. We look forward to a continued relationship where we can provide you with the best service possible, and we thank you for your continued support.

Sincerely,

Phil Steinhauer

# we recommend

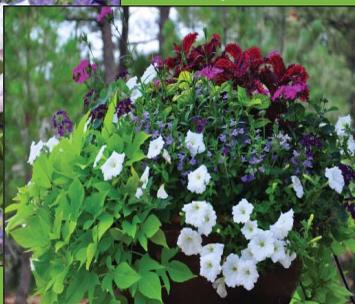

## A Cause We Love...

Our bee population is declining at an alarming rate. How can we help? We need them and they need us - we can all do our part by planting more vegetables and wildflowers for bees to pollinate, being conscious of the types of pesticides we are using, and being aware of how we can all co-habitate within our shared environment. <https://bringbackthebees.ca/>

## Annual Color

Let us add a splash of color to liven up your gardens this season. Our design team is highly skilled at providing exquisite color combinations that allow your home to blossom with color. From overflowing annual pots with eye-catching centers to bright and beautiful annual beds, we are able to create a unique palette of colors and textures using the newest and best annuals in the industry.

## Bed Care Program

Our program is tailored around each homeowner's specific needs in order to achieve the best looking planting beds throughout the season. While each property is different, our experienced team and garden specialists customize each package to ensure lasting beauty. The program includes weekly or bi-weekly weeding, dead-heading, trimming, fertilizer applications, pest management and over-all bed maintenance.

## Lawn Maintenance

Getting your landscape healthy early is the key to enduring the summer heat and stress. Our mowing package is designed to do just that and is tailored around your needs and lifestyle. Our package includes:

**Fertilization** – One single extended release application of a total nutrient blend of minerals that encourage lawn health throughout the season. Applied in early spring, it is activated by specific temperatures and moisture levels to carry your lawn health through the growing season. It is completely safe to use around children and pets. Your lawn will be ready for the family to enjoy immediately following the application.

**Aeration** – recommended twice per year to help reduce thatch, relieve compaction and channel water and nutrients into the root zones.  
**Broadleaf Weed Control** – Our spring pre-emergent and post emergent turf application provides the "knock down" power needed to control a wide range of weeds from dandelions to bindweed at the root.

Please contact us for a customized lawn maintenance package

## Landscape Construction and Renovation

Now is the time to schedule a consultation with one of our talented landscape designers. Whether you are looking to add a few trees or want an entire landscape installation or renovation, we would be happy to help you. Our spring and summer schedules fill up fast and we highly encourage you to use this opportunity to get your plan in place! Call 303.721.9003 x110 or email [info@designscapes.org](mailto:info@designscapes.org).

## Sprinkler Activation/Efficiency Testing

At the time of the activation, we will make the necessary adjustment and repairs to your sprinkler system to be fully operational. Our staff has many years of experience in water management and has found that over 80% of the time plants that are sick are suffering from either too much water or too little water. By increasing the efficiency of your irrigation system, your plants will be healthier and more aesthetically pleasing.

Activations start at \$125 for up to 10 zones, and \$15 for each additional 10 zones.

## Clean-ups, Trimming and Shaping

A clean-up of your property is the best way to start a new season. General services offered include raking, light pruning, and winter debris removal.

## Nightscaping

New! Mosquito repellent light fixtures that work within your new or existing lighting system to enhance your enjoyment of your outdoor living space during the hot days of summer. Contact our lighting department for more information.

## Meet Our Staff!

### Raul Alpizar Alvarez - Mowing Supervisor

If you're a maintenance client or have ever had holiday lights installed at your property, chances are you have experienced the wonderful work of our mowing supervisor, Raul Alvarez. Raul has been with Designscapes Colorado for 16 years and he strives to impress our clients with his attention to detail. As a leader, he understands the importance of being a mentor and a role model for the crews that work under him so that Designscapes Colorado can continue as a leader in the green industry. Raul came to Colorado from Toluca, the capital city of the state of Mexico. Raul loves working for Designscapes Colorado because of the opportunities he is given to expand his knowledge and skill sets, along with the potential for growth and development of his future. In his free time Raul can be found leading his team on the soccer field or spending time with his family.
